

Cellular and Molecular Neurobiology—Volume 5, 1985

Cellular and Molecular Neurobiology publishes original research articles concerned with the analysis of neuronal and brain function at the cellular and subcellular levels. The journal welcomes articles utilizing anatomic, physiologic, pharmacologic, or biochemical approaches to the study of neuronal function and oriented to the analysis of elementary mechanisms. Studies of isolated mammalian tissues, and intact animals, with investigation aimed at the molecular mechanisms or neuronal responses at the level of single cells, are accepted for publication. The journal also presents studies of the effects of neurons on other organ systems, such as analysis of the electrical or biochemical response to neurotransmitters or neurohormones on smooth muscle or gland cells.

Cover: Pyramidal cell neuron filled with horseradish peroxidase from the cortex of cat. Courtesy of Dr. Charles D. Woody.

EDITOR

David O. Carpenter, New York State Department of Health, Albany, New York

EDITORIAL ADVISORS

Julius Axelrod, National Institute of Mental Health, Bethesda, Maryland

Marshall Nirenberg, National Institutes of Health, Bethesda, Maryland

EDITORIAL BOARD

Paul R. Adams, State University of New York, Stony Brook, New York

Alfonso X. Albuquerque, University of Maryland, Baltimore, Maryland

Per Andersen, Universitetet i Oslo, Oslo, Norway

Ugo Archigui, Instituto Politecnico Nacional, Mexico City, Mexico

Thomas Bartfai, Arrhenius Laboratory, Stockholm, Sweden

David A. Brown, University of London School of Pharmacy, London, England

Michael Brownstein, National Institute of Mental Health, Bethesda, Maryland

Alan M. H. Bush, School of Veterinary Science, Bristol, England

William Catterall, University of Washington, Seattle, Washington

John Connor, Bell Laboratories, Murray Hill, New Jersey

Earl W. Cotman, University of California, Irvine, California

John W. Daly, National Institutes of Health, Bethesda, Maryland

Georg O. Eckert, University of California at Los Angeles, Los Angeles, California

Ulf Engberg, University of Aarhus, Aarhus, Denmark

Robert W. Gage, University of New South Wales, New South Wales, Australia

Harold Gainer, National Institutes of Health, Bethesda, Maryland

Frederic S. Goodman, Stanford University, Stanford, California

David Greene, New York University School of Medicine, New York, New York

Helmuth Haas, Neurochirurgische Universitätsklinik, Zurich, Switzerland

James Haley, Albert Einstein College of Medicine, Bronx, New York

Richard Hammerschlag, City of Hope National Medical Center, Duarte, California

Edward Herbert, Oregon Health Sciences University, Portland, Oregon

Allan Hobson, Harvard Medical School, Boston, Massachusetts

Samuel Johnston, Baylor College of Medicine, Houston, Texas

Armen Kebedjian, National Institutes of Health, Bethesda, Maryland

Yuri Khodorov, Vishnevsky Surgery Institute, Moscow, USSR

Robert L. Macdonald, University of Michigan, Ann Arbor, Michigan

Lev Magazanik, Academy of Sciences of the USSR, Leningrad, USSR

Donald A. McAfee, City of Hope National Medical Center, Duarte, California

Mark McNamee, University of California at Davis, Davis, California

John S. McReynolds, University of Michigan, Ann Arbor, Michigan

William Osborne, University of Oxford, Oxford, England

Yasunori Otsuka, Tokyo Medical and Dental University, Tokyo, Japan

Yoshitaku Numa, Kyoto University, Kyoto, Japan

David Pasternak, Memorial Sloan-Kettering Cancer Center, New York, New York

Frederic B. Pert, National Institute of Mental Health, Bethesda, Maryland

Yehuda Rahamimoff, Hebrew University, Hadassah Medical School, Jerusalem, Israel

Thomas S. Reese, Marine Biological Laboratory, Woods Hole, Massachusetts

Donald J. Reis, Cornell University Medical School, New York, New York

John M. Saavedra, National Institute of Mental Health, Bethesda, Maryland

Robert Sachs, State University of New York, Buffalo, New York

Yuri Sakharov, Academy of Sciences of the USSR, Moscow, USSR

John M. Salzberg, University of Pennsylvania School of Dental Medicine, Philadelphia, Pennsylvania

Philip A. Schwartzkroin, University of Washington Medical School, Seattle, Washington

Robert Seeburg, Genentech Inc., South San Francisco, California

Yehonima Soreq, The Weizmann Institute of Science, Rehovot, Israel

George B. Stefano, State University of New York, Old Westbury, New York

André Slav Tauc, Centre National de la Recherche Scientifique, Paris, France

Yoshiichi Terashima, University of the Ryukyus, School of Medicine, Okinawa, Japan

John J. Tobin, University of California at Los Angeles, Los Angeles, California

Walter Zieglansberger, Max-Planck-Institut Für Psychiatrie, Munich, Federal Republic of Germany

Cellular and Molecular Neurobiology is published quarterly at 1 Orchard Road, Surrey TW9 4PD, England, by Plenum Publishing Corporation, 233 Spring Street, New York, N.Y. 10013. In 1985, Volume 5 (4 issues) will be published. Subscription orders should be addressed to the publisher. *Cellular and Molecular Neurobiology* is abstracted or indexed in Beck Medical Information, Biological Abstracts, Chemical Abstracts, Current Awareness in Biological Sciences, Current Contents, and Excerpta Medica. © 1985 Plenum Publishing Corporation. *Cellular and Molecular Neurobiology* participates in the Copyright Clearance Center (CCC) Transactional Reporting Service. The appearance of a code line at the bottom of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use. However, this consent is given on the condition that the copier pay the flat fee of \$4.50 per copy per article (no additional per-page fees) directly to Copyright Clearance Center, Inc., 27 Congress Street, Salem, Massachusetts 01970, for all copying not explicitly permitted by Sections 107 or 108 of the U.S. Copyright Act. The CCC is a nonprofit clearinghouse for the payment of photocopying fees by libraries and other users registered with the CCC. Therefore, this consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale, nor to the reprinting of figures, tables, and text excerpts. 0272-4340/85 \$4.50

Subscription rates:
Volume 5, 1985 (4 issues) \$85.00 (outside the U.S., \$96.00). Price for individual subscribers certifying that the journal is for their personal use, \$30.00 (outside the U.S., \$35.00).

Volume 6, 1986 (4 issues) \$115.00 (outside the U.S., \$129.00). Price for individual subscribers certifying that the journal is for their personal use, \$32.50 (outside the U.S., \$39.00).

Subscription to mail at second-class postage rates is pending at Jamaica, N.Y. 11431. Postmaster: Send address changes to *Cellular and Molecular Neurobiology*, Plenum Publishing Corporation, 233 Spring Street, New York, N.Y. 10013. Air freight and mailing in the USA by Publications Expediting, Inc., 200 Meacham Avenue, Elmont, N.Y. 11003.

Printed in Great Britain.

Cellular and Molecular Neurobiology

Vol. 5, Nos. 1/2

June 1985

CONTENTS

Special Issue: Activity Dependent Synaptic Changes

INTRODUCTION

- Activity-Dependent Synaptic Stabilization in Development and Learning: How Similar the Mechanisms? 1
John T. Schmidt

ARTICLES

- Eye-Specific Segregation of Optic Afferents in Mammals, Fish, and Frogs: The Role of Activity 5
John T. Schmidt and Suzannah Bliss Tieman
- The Anatomy of Geniculocortical Connections in Monocularly Deprived Cats 35
Suzannah Bliss Tieman
- A Possible Mechanism of Morphometric Changes in Dendritic Spines Induced by Stimulation 47
E. Fifková
- Formation of Retinotopic Connections: Selective Stabilization by an Activity-Dependent Mechanism 65
John T. Schmidt
- The Role of Visual Experience in the Formation of Binocular Projections in Frogs 85
Susan Boymel Udin
- The Role of Visual Experience in the Development of Cat Striate Cortex 103
Helmut V. B. Hirsch
- Activity-Dependent Presynaptic Facilitation: An Associative Mechanism in *Aplysia* 123
Thomas W. Abrams
- Adaptive Plasticity in the Spinal Stretch Reflex: An Accessible Substrate of Memory? 147
Jonathan R. Wolpaw
- Activity and Synapse Elimination at the Neuromuscular Junction 167
Wesley J. Thompson
- The Role of Brain Extracellular Proteins in Neuroplasticity and Learning 183
- ANNOUNCEMENT 209
-

September 1985

CONTENTS

REVIEW AND COMMENTARY

- Quantitative Autoradiographic Characterization of Receptors for Angiotensin II and Other Neuropeptides in Individual Brain Nuclei and Peripheral Tissues from Single Rats 211
Anita Israel, Laura M. Plunkett, and Juan M. Saavedra

ARTICLES

- Quantitative Autoradiography of the Development of Mu Opiate Binding Sites in Rat Brain 223
Lawrence D. Recht, Joan Kent, and Gavril W. Pasternak
- Further Study of the Correlation Between Na-Pump Activity and Membrane Chemosensitivity 231
Sinerik N. Ayrapetyan, Victor L. Arvanov, Silva B. Maginyan, and Karina V. Azatyan
- Interactions of γ -Aminobutyric Acid (GABA), Pentobarbital, and Homopantothenic Acid (HOPA) on Internally Perfused Frog Sensory Neurons 245
Norio Akaike and Yutaka Oomura
- Light-Evoked Depolarizations in the Retina of *Strombus*: Role of Calcium and Other Divalent Cations 257
Kevin Chinn and Howard L. Gillary
- Immunocytochemical Localization of Actin in Dendritic Spines of the Cerebral Cortex Using Colloidal Gold as a Probe 271
Rochelle S. Cohen, Sookja K. Chung, and Donald W. Pfaff
- Choline Fluxes in Synaptosomal Membrane Vesicles 285
H. Breer and M. Knipper
- SHORT COMMUNICATIONS
- Long-Term Potentiation and 4-Aminopyridine 297
H. L. Haas and R. W. Greene
- Interaction of Heparin with Multimolecular Aggregates of Acetylcholinesterase 303
Juan C. Torres and Nibaldo C. Inestrosa
-

Cellular and Molecular Neurobiology

Vol. 5, No. 4

December 1985

CONTENTS

ARTICLES

- A Comparative Study of the Effects of Tetrodotoxin and the Removal of External Na^+ on the Resting Potential: Evidence of Separate Pathways for the Resting and Excitable Na Currents in Squid Axon 311
Donald C. Chang and Jessica Liu

- Activity-Related Changes in Protein Phosphorylation in an Identified *Aplysia* Neuron 321
Mark Schaefer, Paul D. Shirk, Daniel L. Roth, and Philip H. Brownell

- The Effects of Exposure to Exogenous Fatty Acids and Membrane Fatty Acid Modification on the Electrical Properties of NG108-15 Cells 333
Jeffrey A. Love, William R. Saum, and Richard McGee, Jr.

- Role of Uptake in γ -Aminobutyric Acid (GABA)-Mediated Responses in Guinea Pig Hippocampal Neurons 353
John J. Hablitz and Frank J. Lebeda

- The Effect of Nerve Activity on the Distribution of Synaptic Vesicles 373
L. Maler and W. B. Mathieson

- Action of Excitatory Amino Acids and Their Antagonists on Hippocampal Neurons 389
John J. Hablitz

SHORT COMMUNICATION

- Serotonin Decreases a Background Current and Increases Calcium and Calcium-Activated Current in Pedal Neurons of *Hermisenda* 407
Jon W. Jacklet and Juan Acosta-Urquidi

- ANNOUNCEMENT 413

- AUTHOR INDEX TO VOLUME 5 415

- SUBJECT INDEX TO VOLUME 5 417
